

Calisto® 620

The no cord, no fuss UC speakerphone

Introducing the New Plantronics Wireless UC Speakerphone

Mobile professionals are always on the move, usually on the phone, and hard at work wherever they go. They can't afford to run out of battery power or be held back by their environment and need to be able to deliver the same high quality of work at all times.

As more mobile workers now carry a tablet, it is vitally important that they have tools that can connect to all their devices. They need lightweight, easy-to-use tools that offer top quality phone and networking capabilities with all-day talk time and clear call quality, even when there is background noise, and also simplify call management over multiple devices.

Challenges	Feature	Benefits
<ul style="list-style-type: none"> Managing calls from multiple devices through a single voice gateway 	<ul style="list-style-type: none"> Multiple device connectivity 	<ul style="list-style-type: none"> Connects and seamlessly switches between calls from PC, smartphone or tablet
<ul style="list-style-type: none"> Need to be ready and able to take calls in any environment 	<ul style="list-style-type: none"> Bluetooth® mini USB adapter for PC and Bluetooth connection for smartphone/tablet 	<ul style="list-style-type: none"> Anytime, anywhere PC, smartphone and tablet communications
<ul style="list-style-type: none"> Always need to sound professional wherever you have to make a call 	<ul style="list-style-type: none"> Auto-switching directional microphones 	<ul style="list-style-type: none"> Automatically directs the microphone to the active talker within a group call
<ul style="list-style-type: none"> Don't want to carry bulky or intrusive hardware 	<ul style="list-style-type: none"> Compact wireless (cord-free) lightweight design with soft carrying case 	<ul style="list-style-type: none"> Slips easily into your laptop bag
