Never miss a call on Lync

RINGER

Feature: Busylight UC™ rings/flashes at incoming calls on Lync.

Why? Many computers have no speakers connected and if users are not wearing their headset they do not hear the ringing.

Silence the ringtones

FLASH ALERT

Feature: Mute the ringtone and use silent flashes at incoming calls on Lync.

Why? To avoid noisy ringtones in open-plan offices. And to be able to determine the call from a distance.

Bring *presence* to the office

PRESENCE

RED
YELLOW
GREEN

Feature: Busylight UC™ displays the current presence state in Lync with the colours red, green or yellow.

Why? To avoid interruptions by making colleagues in the office aware of the Lync presence states, especially "Busy" and "Do Not Disturb".

PRODUCT SPECIFICATIONS

System requirements	• Microsoft Lync 2010 or Microsoft Lync 2013 • Windows XP SP3, Windows Vista, Windows 7 or Windows 8 • .NET 4.0 framework
Application software	1. Mass deployment: The driver can be mass deployed using the .msi-file. 2. Single user: A single user can also install the driver on his/her PC. Download software at www.busylight.com/support/lync.
